Field Overview

Mini Field - 30x20 yards U6, U7 & U8 - 4v4

Players at this age need to develop basic motor skills such as walking, running and changing direction. A smaller space will help them to develop these skills while also providing more interaction with the ball, teammates and opponents.

Development Field - 47x30 yards U9 & U10 - 7v7

Players at this age need to develop speed and agility. For this reason we promote play on a bigger field. Players will have more space to move in control of the ball and face 1v1 situations against an opponent in different parts of the field.

Small Sided Field - 75x47 yards U11 & U12 - 9v9

Players at this age need to develop coordination, balance and visual awareness. Increasing the number of players requires faster decision making so players can develop partnerships and game intelligence.

- We do understand it may take some time to work with park departments to adjust field sizes and goals to appropriate sizes.

Calendar Year Registration

Objectives

From U.S. Soccer:

- Alignment with the international age groups
- Combat relative age effect
 - A selection bias towards players born earlier in the year because they are more physically mature than their peers
 - A balance of players born throughout the year is recommended
 - Allows for continued development of players who have yet to mature physically
